

## **Project Design Phase-II**

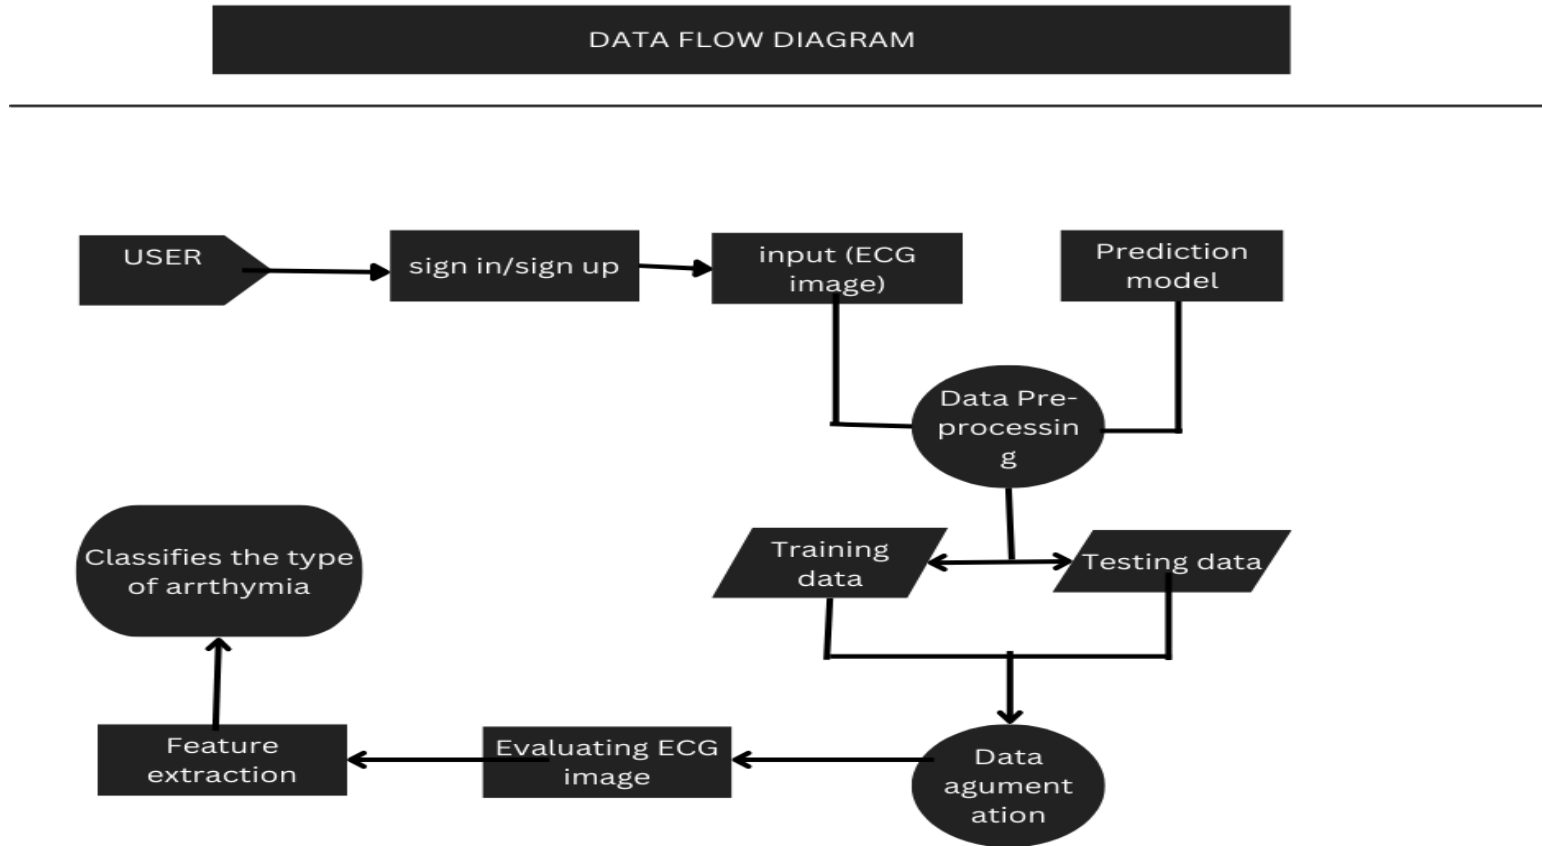

### **Data Flow Diagram & User Stories**

Date	20 October 2022
Team ID	PNT2022TMID35701658581400
Project Name	Classification of Arrhythmia by Using Deep Learning with 2-D ECG Spectral Image Representation
Maximum Marks	4 Marks

#### **Data Flow Diagrams:**

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

## EXAMPLE:

## User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
	Confirmation	USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
	Login	USN-3	As a user, I can log into the application by entering email & password			
	Input	USN-3	As a user, I can upload ECG image into the websites	Input for the model	Low	Sprint-2
	Dashboard	USN-4	As a user I can classify the type of Arrhythmia from the output	Output for the model	Medium	Sprint-1
